KNIFE FIGHT OF MINERS IN CROSBY

Gory Scene of Battle on Balkan Street, Crosby,---1 Killed, 2 Badly Wounded

Sixteen Involved in the Free for All Fight Midnight at Rooming House of Louis Malovich

* Mike Monovich, badly in- *
* jured. *
* Numerous others gashed. *

A free for all fight between thirteen to sixteen men in the rooming house of Louis Malovich on Balkan street, Crosby, midnight last night, resulted in the death of Bob Nukovich. The injured are:

Mike Nukovich, cut head and arm and now in Smith's hospital, Crosby.
Mike Monovich, three gashes in neck, one in shoulder, one across the forearm, condition serious, now in Allen's hospital, Crosby.

Eli Popovich and Steve Popovich fled. The knife fight may have started over the woman at the rooming house. She is now in jail.

The place looks like a shambles, with blood all over the stoves, kitchen, beds, etc. There was no report of the fight until forty-five minutes after it started and Nukovich was dead. All involved are miners.

Crosby police patrolled the district and a call was sent in for the sheriff and Deputy Sheriff John Byrnes was soon on the scene.

County Attorney S. F. Alderman left for the scene of trouble early this morning.

The place of the battle lies a short distance east of Ironton and within the village limits of Crosby. It is in a section once the cause of dispute between Ironton and Crosby, the former wishing to let the community decide which village it wished to become a part of.

All concerned in the deadly quarrel are non-committal, as is general the case among such foreigners. Bob Nukovich was dead when found and so his statement of the quarrel will never become known.

LEADERS APPEAL TO ARMY

Russian Soldiers Urged to Renew Offensive Against Teutons.

Petrograd, May 29.—Virtually all the divergent political factions, all class organizations, councils and even the Socialist leaders, with the exception of the Extreme Leftists, re-echo the appeal of Minister of War Kerensky to the troops and applaud the new order of the day, "advance."

Constant efforts have been made during the past two months by representatives, not only of the government but of the soldiers, to bring home to the army that the abandonment of active warfare would not only mean treachery to the allies but the inevitable loss of all that has been gained in the revolution. It is confidently believed that this last call, supported by almost every element of society, will move the army to a realization of the situation. All the commanders have added their appeals to the order of Minister Kerensky.

Senate Bill Would Prohibit Malicious Storing of Foodstuffs.

Washington, May 29.—A bill by Senator Poindexter of Washington, to punish malicious storing of foodstuffs and other necessities, under penalties of from six months to three years imprisonment, was favorably reported by the senate judiciary committee.

"It is a matter of common knowledge," said the report, "that speculators and dealers throughout the country are taking advantage of the present economic situation to extort unreasonable profits from customers. These offenses are particularly heinous in times of war."

Starting German Plots Revealed Facts Disclosed

(By United Press)
Washington, May 29.—The starting of a German plot was revealed to the house interstate commerce committee when Secretary Lansing disclosed the fact that the Germans or German officials had attempted shortly before the American declaration that a state of war existed to involve the United States in differences with England and France through the organization of a big steamship company to deliberately violate trading with the enemy acts, and Secretary Lansing says that the department of justice is investigating the matter.

LIBERTY BOND SALE CAMPAIGN STARTED

**Team Captains Appointed in the
Wards of City and Country to Sell
City's \$200,000 Quota**

**W. H. Gemmell President, Dr. Walter Courtney
Vice President, R. R. Gould Secretary
of Organization**

An aggressive campaign to sell Liberty Bonds in Brainerd and have the city buy its quota of \$200,000 was set in motion at the Chamber of Commerce last night when bankers, business men, shop men and others assented to the plan proposed, elected officers and named their executive committee. All present pledged to buy bonds and help in the campaign.

Let it be known from the start, this is no bankers campaign, no business men's campaign, no shopmen's campaign. This is everybody's campaign. For unless the united support of all Brainerd is gained in the movement, Brainerd will fall short of its allotment and that's no credit to this town.

The plan has been made so simple that all can invest. Buying a Liberty Bond on installments offers an excellent opportunity to save. At \$1 a week you can buy a bond.

Or pay down 2 per cent or \$1 on a \$50 bond. Pay 18 per cent or \$9 on June 28. Follow with 20 per cent or \$10 on July 30, 30 per cent or \$15 on August 15 and 30 per cent or \$15 and accrued interest on the entire amount on August 30. Any bank in Brainerd will receive your subscription.

The World's Safest Investment
The United States government has called for subscriptions at par to \$2,000,000,000 "Liberty Loan" war bonds. Subscription books will remain open until June 15th unless closed earlier by the Secretary of the Treasury, who also reserves the right to allot an amount of bonds less than that subscribed if the loan is oversubscribed. These bonds will be issued in denominations of \$50, \$100, \$500 and \$1,000; will be due June 15th, 1947; will be payable semi-annually June 15th and December 15th. Subscriptions must be accompanied by 2% of the amount subscribed and payment for the balance will be due in installments as indicated. The privilege of paying in full at one time rather than in installments will be granted on terms to be announced later by the secretary of the treasury.

The bonds will be exempt from all taxation in the United States or its possessions except inheritance taxes. If during the continuation of the war with the German government the United States offers new bonds bearing a higher rate of interest than the present issue, these bonds will be convertible par for par into the new bonds.

The call for subscriptions to the "Liberty Loan" presents to every citizen of the United States an opportunity to lend to his country voluntary, prompt, definite and efficient aid, and to obtain by so doing an investment which is safe beyond all doubt, and the possession of which will bring lasting pride and satisfaction.

W. H. Gemmell presided as chairman at the meeting last night. R. R. Gould was named secretary, Dr. Walter Courtney vice president and the officers made permanent.

George D. LaBar, president of the First National bank, explained the objects of the meeting. It was to organize a body of men to campaign and sell \$200,000 bonds, the amount allotted to Brainerd.

F. A. Farrar, vice president of the First National, director named to represent Crow Wing county, was present at the conference and spoke.

An executive committee was named, one from each ward, to captain the various teams, and on motion three more were added to look after country districts tributary to Brainerd. The committee is:

First Ward—Senator George H. Gardner.

Second Ward—Fred Parker.

Third Ward—Edward Crust.

Fourth Ward—Rep. Hilding A. Swanson.

Fifth Ward—Giles P. O'Brien.

For country districts near Brainerd, George D. LaBar, H. E. Kundert and Con O'Brien.

Work started promptly this morning. Each team captain is empowered to call on any man in Brainerd to assist him.

Henry W. Linnemann suggested the additional members to cover Dykeman and other communities trading in Brainerd.

It was announced the executive committee would meet Tuesday at 1 P. M. at the Chamber of Commerce to report progress.

The County Bankers association meets Tuesday too. They are busy seeing that Crow Wing county takes its allotment of \$400,000.

Supt. W. C. Cobb and assistants will speak to the school children on the Liberty Bonds, the explanation made them being transmitted to their parents.

The Dispatch will be glad to give publicity to every step of progress made in the campaign and will keep its readers posted.

If you can't fight in this war, buy a bond. Do something for your country.

Sitting snug and contented never pushed a war to a finish.

School children of Minneapolis took \$50,000 worth of bonds.

This is the first time Uncle Sam has appealed to the nation on so large a bond issue and every cent raised will be spent right here in the U. S. A.

URGED BY ADMIRAL BENSON

Naval Officer Favors Acquiring Cape Cod Canal.

Washington, May 29.—Admiral Benson, chief of operations, told the senate commerce committee he considered government ownership of the Cape Cod canal of great value to the navy. Such a canal, the admiral testified, would be of great value in the moving of ships to escape submarines and he suggested the connection of New York bay with Delaware river and the latter with Chesapeake bay by canals for the same purpose. Secretary Redfield told the committee the cost would be about \$25,000,000.

A pending bill provides for the acquisition of the Cape Cod canal.

Columbia Professor Optimistic on Submarine Problem.

New York, May 29.—Michael I. Pupin of Columbia university, president of the New York Academy of Sciences, at the centennial meeting of the society predicted that the German submarine menace would be effectively solved and that the American public soon would realize "the value of the men of science in meeting the ruthless undersea warfare."

Professor Pupin said the "inventive genius of the Yankee," which had given the submarine, the telegraph, the telephone, the flying machine and the rapid fire gun, soon would "demonstrate that the same genius would nullify and obviate the submarine."

Ore Deposits.

Men sometimes dream of enormous wealth stored deep in the earth, below the reach of miners, but experts aver that there is little or no ground to believe that valuable metallic deposits lie very deep in the earth's crust. Such deposits, it is said, are made by underground waters, and owing to the pressure on the rocks at great depths the waters are confined to a shell near the surface. With few exceptions ore deposits become too lean to repay working below 3,000 feet. Nine mines in ten, taking the world as a whole, are poorer in the second thousand feet than in the first and poorer yet in the third thousand.

**Choose Your Six
From Among the Leaders**

THERE are automobile dealers selling Chandler
Cars in a thousand cities and towns. Natu-
rally, however, there are a great many towns
in which there is no Chandler dealer. It is possible
that the town where you do your trading, your
home town, has no Chandler dealer. Still, if you
choose your six from the two or three makes which
may be represented there, the chances are you do
yourself a serious injustice. Make your choice from
a broader field.

The resident of a city when he buys his car
chooses from among many. He compares many.
He knows and talks with the owners of many. Why
shouldn't you choose from many?

THOUSANDS WHO COMPARE ALL If you want a high-grade six-
MAKES PREFER cylinder car why should you
CHANDLER accept the six which happens
to come with the line of some
low-priced "four" which finds ready sale all through
the country just because it is cheap? You shouldn't.
The buyer in the city choosing a high-grade six does
not choose a six that comes with the line of cheap
cars. He chooses a six from among the leading sixes.

And we want to emphasize this fact—which to
you is absolutely vital in your consideration of the
choice of a car—that in large communities where
buyers have the choice of absolutely all automobiles
manufactured in this country—not the choice of
two or three lines, but the choice of all lines—the
Chandler Car is a leader.

In all the big cities where men have the choice of
all cars, the Chandler is a leader.

CHANDLER WINS FAVOR IN COUNTRY And in hundreds of farming
communities, in farming com-
COMMUNITIES munities wherever introduced,
the Chandler has sprung into immediate popu-
larity. It has attained its popularity in country
communities the same as in city communities for
the same reasons of finer value for fair price.

Why deny yourself the opportunity of this greater
value in a six, even though there may not be a
Chandler dealer in the nearest village?

The six that may be leading in sales there, be-
cause of the mere fact of local representation, possi-
bly commands no recognition whatever in market's
where men have the choice of all makes.

**ONE OF OUR
DEALERS WILL
DEMONSTRATE
FOR YOU**

And there is a Chandler dealer
somewhere near you, so near
to you at any rate that he
would be glad to arrange for
any kind of a demonstration you might desire. And
near enough to you so that such incidental matters
of service as you might require could be readily pro-
vided you.

The thing we ask you to do is to give yourself
the advantage of knowing something about this
great car which in four years has gone to an ab-
solutely commanding position in the trade, and
which this year twenty-five thousand buyers will
pick as the six to be preferred above all sixes. We
want you to know this car, and you owe it to your-
self to know this car.

CHANDLER CLAIMS OF SUPERIORITY ARE You should know all about the
Chandler because the Chand-
EASY TO PROVE ler offers intrinsic value great-
er than other sixes for which
you are asked to pay much more, and immeasurably
greater values than other sixes for which you are
asked to pay only a little less. Greater value in
materials, design, equipment, and, above all else,
in the dependable and enduring service of its mar-
velous motor.

You may say it is easy to make such a claim for
the Chandler. It is. And IT IS EASY TO PROVE
SUCH A CLAIM FOR THE CHANDLER.

What other make of car, at anything like the
Chandler price, offers you a motor which has been
developed, refined and perfected throughout four
years of conscientious manufacture and not subjected
to radical changes or experimental devices?
NONE.

What other make of car, at anything like the
Chandler price, offers you such a proven mechanism
as the whole Chandler chassis? NONE.

What other make of car, at anything like the
Chandler price, offers you all those features char-
acteristic of the highest priced, highest grade cars

Miss Clayton at the Best

What is undoubtedly the best work that Marguerite Clayton has done in her career as a photoplay actress is to be seen in "The Night Workers," current Essanay feature dealing with the life by night in the large cities.

Miss Clayton's most recent work was as featured lead in the immensely popular "Is Marriage Sacred?" series in which she won new friends throughout the country. Before that she played in "A Daughter of the City," "The Prince of Graustark," "According to the Code," and numerous other productions including many of the well-known Black Cat features of Essanay.

In her latest feature, "The Night Workers," she is seen in the role of a girl reporter who is placed among the dangers and temptations of night life. After many thrilling experiences she escapes unscathed. Jack Gardner, of stage fame, appears opposite Miss Clayton in this production.

Miss Clayton is an extremely pretty girl with a remarkable head of golden hair and with blue eyes. She was born in Salt Lake City in 1896 and upon graduating from convent school in 1913 was almost immediately engaged by Essanay for the feminine lead in western dramas. Later she was transferred to the Chicago studio.

Miss Clayton finds the saddle her principle pleasure, and naturally, as she is a typical western girl. She is a daring horsewoman and is frequently to be seen on the Lincoln Park bridle path.

Farewell Party

The Joy Bearer class of the Presbyterian Sunday school gave a farewell party in honor of their teacher, Mrs. Pfeleughoff, on Friday evening at the home of Ellen Dillan. An enjoyable evening was spent and a delicious lunch served. Mrs. Pfeleughoff leaves shortly for her new home in Wisconsin.

NOTICE

As director of the Brainerd Symphony and Choral club I wish in behalf of both organizations to thank the Symphony association for their efforts in making the season a financial success and the public for their kind patronage. Personally I think the entire season has been a musical triumph and both Choral club and orchestra have reason to be congratulated. Now that it is over we all are looking forward to our next year's work hoping that it may surpass all former efforts.

I wish also to emphasize my gratification at the results obtained by the Choral club during the past season and to thank them for tickets they sold and the beautiful programs provided for each concert.

MARKET OPENS THIS MORNING

Former Meat Market of McGinn & Smith Now Under the Ownership of Clarence H. Smith

The business place of McGinn & Smith on Sixth street south, which has been closed for the past few days, was reopened this morning for business, Clarence H. Smith having bought the interest of his partner and will conduct the meat market and grocery store in the future. The place has undergone an entire change, rearranged and brightened in appearance and the new management announces that the business will be conducted on a cash basis with no delivery, this having the effect of reducing expenses and which will enter into the reduction of prices to customers. George Kaupp, who has been with the firm for some time, is back at his place and will be one of the force at the "Cash and Carry Market" who will be pleased to see all his old friends and customers.

Obituary

Laura Odell Blount, daughter of Royal and Cordella Blount, was born Dec. 16, 1855, in Callavangus county, N. Y., was united in marriage with H. R. Richards Dec. 16, 1873. To this union were born five children, Mrs. E. E. Henderson of Central City, Iowa; Mrs. S. E. Wright of Brainerd, Minn.; John G. Richardson, who died in infancy; Mrs. G. E. Wright, of Central City, Iowa, and R. S. Richardson of Ironton, Minn.

She also adopted a baby girl in 1905 who still lives at home.

In early youth she joined the Baptist church at Central City, Iowa, remaining a faithful member until death. Her faithfulness and loyalty will be remembered and missed by her fellow Christians.

Death came to her from a forest fire at her home near Brainerd, Saturday, May 12, 1917.

She is survived by her aged father, by a brother E. R. Blount of Decorah, Iowa, and a sister Mrs. T. P. Woodie of Blue Earth, Minn., one sister Mrs. Meade of New York, having preceded her in death.

Seven grandchildren with the daughter and son already mentioned are left to mourn her, while the companion of her life who with her entered into activities of home, church and social life is bereft of this helpmeet so loyal and true will miss her more than all.

WHY IT SUCCEEDS

Because it's for One Thing Only and Brainerd People Appreciate This

Nothing can be good for everything.

Doing one thing well brings success.

Doan's Kidney Pills are for one thing only.

For weak or disordered kidneys. Here is Brainerd evidence to prove their worth.

Charles Ellison, 512 S. Quince St., Brainerd, says: "My kidneys were disordered for several years and seemed to be gradually getting worse. I was taken with such awful pains in my back that I had to go to bed. Medicine patched me up somewhat and I got out in a few weeks, but I continued to suffer severely. I finally got Doan's Kidney Pills at H. P. Dunn's Drug Store and a few boxes put me in good shape."

Lasting Benefit—Over five years later, Mr. Ellison said: "I can still recommend Doan's Kidney Pills. The benefit I got has lasted."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Ellison has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.—Adv.

Wonderful Siberian Railway.

The great railway of 5,600 miles in length that runs across Siberia is one of the most marvelous in the world first because of the difficulties that had to be faced in building it and, secondly, because of its enormous length. For nearly 1,000 miles along this steel track the line crosses an almost treeless plain. All the stations along those weary miles are at least thirty miles apart, and most of the villages are a long way from the stations.

In winter this Siberian line is one continuous view of snow, stretching for miles along the seemingly endless desert. Sometimes the villages and stations are almost buried in snow, and not infrequently the train gets snowed up. Water for the stoves and the engines has to be brought steaming hot, lest it should freeze on the way, and often men at the stations in the depth of winter have to chop off long icicles from the engine and cars. But even the intense cold has its advantages, for dairy products, such as cheese and butter, can be carried by rail without having to be put into refrigerating trucks.

Russia's Timber Resources.

Russia, of all the nations of the world has the greatest timber resources. It is said that the total number of acres of forest owned by the Russian government reaches almost a billion.

"DOWN WITH THE FOOD PIRATES"

Congressman Harold Knutson Voices Indignation at High Cost of Food and Clothing

ANSWERS WOMEN'S TELEGRAM

Said he Would Vote for Federal Control of Food Bill if Woodchucks Were Absent

In a message responding to the resolutions of the women's mass meeting in Brainerd which went on record as favoring federal control of the food situation, Harold Knutson, congressman of the Sixth district, wrote:

"I am heartily in favor of legislation that will put the food pirates out of business. The agricultural committee of the house will report out a bill along that line within a few days and assuming that the bill does not contain any woodchucks, I have made up my mind to vote for it. I am not only in favor of controlling prices on food stuffs but on shoes, clothing and every other necessity that has advanced beyond all reason as a result of the war."

LUNCH BASKETS.

What to Pack In Them and How to Pack Them.

The basket lunch is harder to plan and also to prepare than the lunch at home. To begin with, there are many foods which cannot be included in it either because they are not good cold or because they cannot be conveniently packed or easily carried. This leaves fewer foods to choose from, and so extra care is necessary to prevent sameness. Extra care is needed, too, in the preparation of foods that must be packed in small compass and kept for several hours before being eaten.

Variety in breads, too, is more important at this than at other meals because of the danger of monotony. Wheat bread, whole wheat bread, corn, rye or oatmeal breads; nut, raisin and date breads; beaten biscuit, rolls, crisp baking powder biscuit or soda biscuit and toast, zwieback and crackers may be used in turn to give variety. Rolls hollowed out can be made to hold a large amount of sandwich filling, which is an advantage at times.

In packing the lunch basket put at the bottom the things least likely to crush and wrap the sandwiches, etc., into neat parcels, not all in one. Paper cups, jelly tumblers with covers, which can now be bought in several sizes; bottles with screw tops, such as those in which some goods are sold by drug stores can all be used for packing jellies, jams and honey as well as the foods mentioned above. When clean and in good condition empty receptacles of this kind can be saved for use in the lunch basket.

Here are some bills of fare for the lunch basket:

1. Sandwiches with sliced tender meat for filling, baked apple, cookies or a few lumps of sugar.
2. Slices of meat loaf or bean loaf, bread and butter sandwiches, stewed fruit, small frosted cake.
3. Crisp rolls hollowed out and filled with chopped meat or fish moistened and seasoned or mixed with salad dressing, orange, apple, a mixture of sliced fruits or berries, cake.
4. Lettuce or celery sandwiches, cup custard, jelly sandwiches.
5. Cottage cheese and chopped green pepper sandwiches or a pot of cream cheese with bread and butter sandwiches, peanut sandwiches, fruit, cake.
6. Hard boiled eggs, crisp baking powder biscuits, celery or radishes, brown sugar or maple sugar sandwiches.
7. Bottle of milk, thin corn bread and butter, dates, apple.
8. Raisin or nut bread with butter, cheese, orange, maple sugar.
9. Baked bean and lettuce sandwiches, apple sauce, sweet chocolate.

Bishops and Mustaches.

Shall we ever see the day of a bishop with a mustache? At present, of course, he may only wear a mustache chaperoned by a beard—an unwritten code. The present bishop of Chelmsford was the possessor of a luxuriant mustache until his elevation to the episcopate, when it disappeared. The bearded judge we have had with us for years, but the mustached judge is a comparatively new arrival. He came in with Lord Justice Phillimore and was followed, not long afterward, by Mr. Justice Shearman. As for doctors, a generation ago a mustached M. D. would have been open to the charge of unprofessional conduct.—London Chronicle.

A Hawk and a Hymn.

Charles Wesley, brother of John Wesley, who founded the Methodist church, wrote some 6,000 hymns. "Jesus, Lover of My Soul," was the most popular of any he wrote. He got the idea for this one day as he was sitting at his desk. A bird pursued by a hawk flew in at the open window. The hawk, afraid to follow, flew away, and Wesley, struck by the incident, was at once inspired to write a song, applying what he had witnessed to our spiritual life.—Kansas City Star.

Your Flag and my Flag!
And, oh, how much it holds
Of your land and my Land
Safe within its folds.
Your heart and my heart
Beat quicker at the sight;
Sun-kissed and wind-kissed,
The Red, the Blue and White!
The one Flag—the Great Flag—
The Flag for me and you—
Glorified the whole world wide—

WHAT DEWEY DID AT MANILA

Admiral Dewey's grave will be one of those honored tomorrow when throughout this broad land Memorial Day services will be held for the purpose of commemorating the heroic deeds and self sacrifices of the men who made liberty possible in the country in which we live. The St. Cloud Journal-Press gives the following review of the story of Admiral Dewey's capture of Manila and the Philippines, that is interesting reading at this time.

It will be remembered that when Dewey sailed into Manila bay, knocked out the Spanish fleet, and then cut the cable, so that he should have a free hand, the news of this great May 1 victory was sent to the United States by a boat to Hong Kong, and it was as brief as it was complete. It surprised and electrified the United States, and astonished the whole world. It marked the passing of Spanish misrule in the Pacific, which had held its grip since the days of Magellan.

Dewey was little known when he sailed into Manila bay, but what he did there, and the able manner in which he handled a great crisis, will make him one of the world's famous men of history.

When the news reached the various countries there was consternation. These countries had claimed the Orient for their own field of exploration. Without warning the great republic had obtained a foothold in the Philippines, and it might use this as a base for claiming its share of the trade in China.

Warships began to arrive at Manila—English, French, German and Japanese, sent there undoubtedly to watch Dewey.

The American admiral, so far from his own country, with only a small fleet of boats, and with no soldiers, was put in a most difficult and trying position. He had to act upon his own responsibility. He was too far from home to receive immediate support. The attitude of the foreign commanders had to be reckoned with, as also the fact that he had thus far only command of the bay, and that Manila and the Philippines were in the hands of the Spanish, and we were at war with Spain.

It is extremely interesting to note the stand taken by the commanders of the foreign ships. Germany was openly hostile, and of all nations had less reason to be there at all, and yet it sent the largest and most powerful fleet. France was not pleased, but the French admiral did not go to the length in arrogance and meddling of the Germans, but was clearly in sympathy with the Americans. It began to look serious for Dewey and the Americans. Much depended upon the attitude of England and Japan. When the lines began to tighten the English commander showed that blood was thicker than international sentiment, and he showed that if there was to be trouble, forced by Germany, that the Anglo-Saxons would stand together. He would fight side by side with Dewey if fight there must be. Japan followed the lead of England, and this fact should be remembered to the credit and friendship of America and Japan.

It is now history, how the German commander became so offensive that he was forced by Dewey to withdraw. Dewey at one time sending a shot across the bow of the German warship when it started to disobey his orders.
In these latter days, Dewey must

have remembered the acts of the Germans, and he naturally had a warm regard for the English navy that did him so good service in his great hour of need. When the history of this war is written, Dewey's influence will be more clearly revealed, and it will be seen that his experience in Manila bay may have gone a long way to swing the United States into the conflict against Germany.
In such comparative trifles are the destinies of great nations sometimes shaped—for good or ill.

GIVE THANKS FOR PUBLICITY

Military Training Camps Assn., of the United States.
Central Department

Chicago, May 26, 1917.

Mr. W. H. Gemmell,
Brainerd, Minn.

Dear Sir—Your official report No. 164 dated May 16th, on recruiting for Officers' Training Camps received, for which please accept our thanks.

We sincerely appreciate the splendid work done by you and your committee in securing applications for these camps and by Dr. J. A. Thabes in voluntarily examining applicants. Please also express our appreciation of the substantial help given by The Brainerd Daily Dispatch, The Brainerd Journal Press and The Brainerd Tribune by publicity in their columns. To the patriotic co-operation of all who helped in this work is due the success attained at Brainerd.

In whatever work the war department may call upon us to perform we trust we may again have the active co-operation of all those who so ably co-operated at Brainerd for the first camps.

Again thanking you, we are,
Yours very truly,

Military Training Camps Assn., of the U. S. Central Dept.

(Signed) WHARTON CLAY,
Executive Secretary.

MINING MEN VISIT BARROWS

Barrows, Minn., May 29.—A party of mining and business men visited Barrows today and examined the Rowley mine and the town. They included Louis Kuhn of Milwaukee, Wis., treasurer of the Duluth Land & Timber Co., owners of the town-site of Manganese; John Wahl, of Duluth; Oliver Johnson, of Superior, Wis., and Ole Kinn of Duluth, of the Wahl-Kinn Motor Co. The trip from Duluth to Brainerd was made in a brand new Case car and good time was made. Manganese was found to be in a flourishing condition, and the range busy.

CAPT. N. M. GREEN IN CITY TODAY

Capt. N. M. Green of Duluth today visited the local army recruiting office in charge of Private Raymond Lowery. Brainerd was given praise for the good record made and Capt. Green hoped it would be maintained. Capt. Green promised to visit the Brainerd Rifle club range in the near future, as he had heard much about its excellent arrangement and the club was one which shot regularly and was successful in constantly increasing its membership.

The northwest was yielding a fine class of recruits and the rejections were low, thus insuring a large quota.

Baths For the Canary.
Under normal conditions most birds probably bathe daily, and canaries in captivity should be allowed the same opportunity. When individual birds obstinately refuse to enter the water gentle spraying usually will induce them to bathe.

Small china dishes that are not too deep make good bathing pans. When a bird becomes accustomed to one dish it usually will refuse to bathe in another one of different shape and color. In winter the water should be warmed until tepid. Even in warm weather too cold water is not advisable. If the room, ordinarily warm, becomes cold temporarily, birds should not be allowed to bathe.

During molt the bath should be given not more than twice each week. When breeding the female canary should not be allowed to bathe from the time the eggs hatch until the young are three or four days old.—United States Department of Agriculture Bulletin.

Written on Glass.
Miss Harriet Auber's beautiful lines, "Our Blessed Redeemer, Ere He Breathed," were written by the authoress on a windowpane in her house at Hoddesdon, a town in England. A dealer in curios tried to purchase this interesting and peculiar manuscript from the owner of the house after the death of Miss Auber in 1862, but he was unsuccessful. The pane of glass was subsequently stolen, and it has never since been found or its fate discovered.

JUDGE MACK BREAKS DOWN

Deeply Affected When His Auto Accidentally Kills Child.

New York, May 29.—Judge Julian W. Mack of the United States circuit court, who has spent most of his life working in the interest of children and at one time president of the Infants' Welfare society of Chicago, a vice president of the Children's Hospital society and in 1914 judge of the Chicago juvenile court, was riding in his automobile when it killed a six-year-old girl.

Judge Mack broke down as he described the accident. The child ran from the sidewalk and fell under a rear wheel.

Judge Mack jumped out, lifted the little girl into his arms and sped to Roosevelt hospital, but an hour later she was dead.

EAST ST. LOUIS RACE RIOT

Whites Object to Importation of Negro Labor.

East St. Louis, Ill., May 29.—A mob estimated at 3,000 persons, determined, they shouted, to rid the city of negroes imported to work in factories and munition plants, swept through the streets, attacking and beating negroes wherever found. Several negroes were injured probably mortally.

The attack followed a meeting in the city hall auditorium called to protest against the importation of any more black laborers.

Several recent crimes have been charged to negroes.

President Signs Naval Bill.

Washington, May 23.—President Wilson signed the bill increasing the enlisted war strength of the navy to 150,000 men and the marine corps to 30,000.

ARTILLERY AND ROADS.

I am not prepared to say that the day of the fixed coast defense guns of our present system is past, but it is the undoubted sentiment among coast artillery officers in our service that we must at least supplement our permanent ones with some suitable type of heavy mobile artillery. Whether these guns should be mounted on flat cars to be transported on a railroad or by motor trucks on the highways is an open question. The latter method would undoubtedly afford a greater degree of mobility, but in the present condition of our highway systems it is almost impossible of attainment.

One of the most important phases of real military preparedness that can possibly be undertaken is that which is going on under the impetus of the good roads movement, now become so general all over the country. A good road, well built, well surfaced and well drained, may be of immense value from a military point of view. In the location of roads, particularly along the shore, special attention to military requirements in the laying out and planning of a highway may prove of inestimable value at some time in the future when that highway becomes a military road.—Captain Arthur Hyde, U. S. A.

STORM REPORTS ARE INCOMPLETE

Death Toll in Four Southern States Is 160.

OVER FIVE HUNDRED INJURED

Kentucky, Tennessee, Arkansas and Alabama Suffered Severely in Sunday's Tornadoes—Efforts to Restore Wire Communication Only Partly Successful.

Chicago, May 29.—Revised reports from the sections of Kentucky, Tennessee, Arkansas and Alabama, swept by tornadoes Sunday, place the number of known dead at 160 and the injured at approximately 550.

In Alabama the mining camps at Sayre, Bradford and Carbon Hill reported forty-six fatalities and in Tennessee, Tipton, Dyer and Carroll counties reported thirty-four dead.

The property damage in Alabama is estimated at about \$1,000,000. In Mississippi county, Arkansas, ten were killed.

Dyer county suffered the largest loss of life in Tennessee. Near Dyersburg seven were killed and forty injured. Other Tennessee towns reporting casualties were Cates Lake, Trezevant, Ore Springs, Sparon, Linden and Bakerstown.

Efforts to restore wire communication so far has been only partly successful and it will be some hours before the full extent of the disaster is known.

The toll of dead and injured in Western Kentucky continued to mount rapidly as a confused mass of conflicting reports from many sources were sifted. It appeared probable the death list would approach seventy and those injured would number several hundred.

At Hickman a check of reports from various sources apparently established the death list in Fulton county will exceed forty. It is estimated the injured will number nearly 200.

In Fulton county much of the cotton crop is said to have been stripped from the ground. The loss from cattle killed, it is expected, will amount to many thousands of dollars.

At Clinton, Ky., twenty-five were killed and seventy-five injured.

REGISTRATION LIST GROWING

Men Commencing to Enroll at County Auditor C. W. Mahlum's Office in Court House

THREE RECORDED ON MONDAY

Law Provides for Such Procedure Where Men Will be Absent From Brainerd June 5th

REGISTRATION PROCLAMATION ISSUED BY GOVERNOR.

Governor Burnquist late Saturday issued a proclamation urging special exercises for June 5, registration day.

He does not proclaim it a public holiday, but says patriotic gatherings should be held to impress all with the importance of the occasion.

The proclamation follows:

"Whereas, the president of the United States has by proclamation designated June 5, 1917 as registration day, and realizing the desire on the part of the people to show appropriately their appreciation of the significance of this day, I hereby urge that everywhere throughout the state there be held thereon exercises of such a nature as to impress all with its importance.

"June 5, 1917, will be a memorable day in our history, for then our loyal citizens will respond to their country's call. "With ill will toward no race but with a desire to strike a blow at military autocracy, they will, on that day, volunteer their services in behalf of as great and righteous a cause as any for which men have ever fought.

"The state government is looking to those in charge of its organizations in its different counties to make fitting arrangements in their respective communities for a suitable recognition of the meaning of this momentous day by the holding of patriotic meetings and by the making of such further plans as may be deemed advisable in conformity with its purpose."

Men who will be out of town June 5 and who are eligible for the selective army draft, being between the ages of 21 and 31, have started to register with Charles W. Mahlum, county auditor, at his office in the court house.

The first card in came by mail from Harold Avah Larrabee, age 23, single, home address 566 First Avenue Northeast Brainerd. He was born June 17, 1893, in Sleepy Eye. His present trade is cable man on a work train and he is employed by the Northern Pacific railway, Superior, Wis. He was a corporal in the University of Minnesota corps of cadets one year. He claims exemption, stating he is nearly blind in one eye. The card was made out before W. J. Leader, county clerk, Dayton county, Wisconsin.

Werner Wellington Hemstead, Jr., age 21, of 303 Fourth street north, Brainerd, registered late Monday afternoon. He was born June 26, 1895, in Brainerd and is a student at the University of Minnesota. He was a private one year in the First Minnesota Field Artillery. He claims no exemption.

Edwin Raymond Blake, age 23, of 762 North Fifth street, Brainerd, was born February 8, 1894, in Ferguson Falls. He was formerly a grocer by occupation and is single. He was a private in Shattuck military school and a corporal in Pillsbury military academy three years. He claims no exemption. On May 28, 1917, he enlisted in the army.

MEMORIAL DAY PROGRAM GIVEN

Parade in the Morning Leaving Business Section at 9 O'clock, Many Taking Part

REV. H. G. STACEY THE ORATOR

Dinner Served to Old and New Soldiers and Others Invited at Elks Hall After Exercises

The committee in charge of Memorial Day request that all organizations and units participating in the parade to the cemetery be on hand promptly so that no delay may be caused to prevent the parade starting at the appointed time.

All are requested to assemble at their appointed places at nine o'clock. The parade will form on Sixth street, facing north, and will start at 9:30. The committee in charge would respectfully request that autos and conveyances would try to avoid meeting the parade while in march by using some other street to reach their destination.

By special permission from the cemetery authorities the autos conveying the G. A. R. veterans and the W. R. C. and Circle Ladies will enter the cemetery grounds, but this will not apply to any other autos.

Attention is called to the fact that the place for conducting the exercises at the cemetery has been changed since last year and a new speaker's stand and cross have been erected at the upper and east sections of the grounds.

Line of March
The column will form on Sixth street headed north, will march north on Sixth to Kingwood, on Kingwood east to Ninth, on Ninth north to Fir, from Fir following the main avenue to the cemetery.

The school children part of the parade will take the sidewalk at Ninth and Fir in order to avoid the sandy street for the little folks.

It is requested by the committee in charge that the sidewalks from Fir street to the cemetery be left open at the time the parade is passing for the marching column.

Order of March

1. Brainerd City Band.
2. Firing squad from First Minn. Regiment.
3. Uniformed company of Boy Scouts.
4. G. A. R. Veterans, W. R. C. Ladies, G. A. R. Circle Ladies in automobiles.
5. Veteran detachment on foot.
6. N. P. shop Drum Corps.
7. Class of 1917, B. H. S.

The members of the local Post, G. A. R. and the W. R. C. will be well provided for in the shape of conveyances to take them to and from the cemetery on Decoration Day, thanks to the co-operation of the following citizens who have volunteered cars for this purpose: F. S. Parker, Clyde Parker, Richard Johnson, W. H. Crowell, N. H. Ingersoll, Arthur Drogseth, A. F. Fisher, Dr. A. K. Cohen, Dr. J. A. Thabes, John Mahlum, Louis Sherlund, A. G. Trommaid, Henry W. Linnemann, Con O'Brien, O. H. Johnson, F. H. Simpson, J. E. Brady.

Cars will be banked in front of the Elks hall at 8 a. m. sharp in readiness for the trip to the cemetery.

The securing of cars for this purpose was left to F. S. Parker of the Brainerd Automobile club by President S. R. Adair of that organization and Mr. Parker came in from the lake to assume charge of his part of the program. He listed the cars turned into the list with his usual promptness.

COURD TO PITCH AGAIN MAY 30

Wells Lament Team of Minneapolis a Fast One—Doc Edwards to Stiffen Locals Backbones

The Brainerd Reds are due for another hard fought game to be played in Brainerd on Decoration Day, but Doc Edwards says, "We should worry. That's what the red shirted warriors need as the harder the opponents the better the Brainerd boys work, and after the showing against the much touted and advertised range team which was made last Sunday they will soon be in shape to go against McGraw's New York Giants."

It is rumored that there are two and maybe three weak spots in the team that will be filled up by the day of the Decoration Day game, and the supposition is that these places will be filled with men that the local fans are acquainted with and are men that can use the stick, therefore it begins to look as if Doc would have a line-up that will make any other independent ball team in this part of the country "sit up and take notice."

From all reports the Wells Lamont team from the larger of the Twin Cities have cleaned up everything that they met, but they are doomed to a surprise when they meet the local boys in their red war togs.

The line-up for tomorrow's game will probably be as follows:
Brainerd—Gourd p, Tanner c, Cook 1b, Calander 2b, Benda as, Diedrich 3b, Bush lf, Longley cf and Carlson rf.

For the Minneapolis team following is the line-up sent to the local manager—Swanson 1b, Bloomquist 2b, Corbin as, Moore 3b, Borst lf, Taylor cf, This rf, Sande c, and Brown or Blank on the hill.

Manager Borst of the Twin City team has sent word that they are out for one more scalp for their list of trophies, and they expect Brainerd to donate to that list.

But we are wondering what Doc is thinking about while they are making such a request. We think that if it is necessary, the local manager will take his warriors to the office one at a time and introduce them to the wonders of chiropractic, and they will then be able to go up against almost any old team.

100 DELEGATES IN CITY SATURDAY

County Organization of the Minnesota Commission of Public Safety to be Perfected

R. R. WISE COUNTY DIRECTOR

Every Township in County, Every Ward to be Represented at Meeting at Chamber Commerce

Indications point to a large and enthusiastic gathering of delegates at the Chamber of Commerce Saturday afternoon, June 2nd, in response to the official call of R. R. Wise, Crow Wing county director of the Minnesota Commission of Public Safety, as over 100 delegates have been named and notified.

The city of Brainerd will be represented by wards, two delegates from each ward to be named by the mayor and every civic organization as well will be invited to send delegates. As soon as the county organization is duly perfected under the rules and suggestions of the state organization, an active and systematic campaign to put Crow Wing county to the fore among the counties actually doing things will be made.

A number of counties will organize this week and others are making the preliminary plans for the same, notifying delegates and arranging for the meeting. Each association will adopt a uniform set of articles of organization sent out by the state commission.

Official Call

The following official notice has been sent to those named as delegates in the different townships and villages of the county:

May 29, 1917.

Dear Sir—Acting under the authority of the Minnesota Commission of Public Safety, for which I have been appointed director for Crow Wing county, a meeting of representative men and women from each city and township has been called for Saturday, June 2nd at 2 p. m., at the rooms of the Brainerd Chamber of Commerce. You have been named as a delegate to represent your locality at this meeting and I wish to emphasize the importance of your attending the same.

The purpose of this meeting is to perfect an organization, to be known as the Crow Wing County Public Safety association. It is desired by the state organization that activities in connection with our efforts to aid our government in the present war, be conducted under the direction of this county organization and the importance of a representative gathering is apparent.

It will be made up of both men and women, and representatives of all associations now doing their part to aid the nation in the hour of its great trial. The call is imperative; will you make your attendance on this meeting a FIRST DUTY, in order that this county may be one of the first in the state to act. This letter is your credential for the meeting of delegates. Please be with us and assist in the organization. Let us know what Crow Wing county can do and, DO IT NOW.

Very truly,

R. R. WISE,
Director.

TOM WOOD, A NAVY RECRUIT

Enlistment Secured When the Naval Reserve Quartet Sang Way Into His Big Heart

LIEUT. KETTERER WAS PLEASED

Said Tom Was the Largest Enlistment Secured in the History of the Minneapolis Section

The Naval Reserve Quartet sang its way into the heart of Tom Wood or "Fatty" as he is known, and he went right down and enlisted in the navy yesterday.

"That makes the largest enlistment in the history of the Minneapolis section," said Lieutenant G. E. Ketterer, who is with the quartet. Fatty's measurements are something heroic. He is six feet four inches high, weighs 485 pounds, has a waist of over 65 inches with seven inches chest expansion.

Lieutenant Ketterer said the matters had been specially taken up with the Bureau of Navigation to see if Mr. Wood can enter the service as he was well qualified for submarine work, being practically unsinkable.

The Minneapolis district has covered itself with glory in the work of recruiting. Brainerd is a part of the district. From April 1 to May 18 there were 2,917 men accepted. The quota assigned by the government, 800 from April to May, was completely overshadowed and praise and congratulations was received from the Navy League.

Lieutenant Commander Willson laid it all to the hearty support of the town and country press, the lady recruiting officers and the efficient office force. And besides, this section of the northwest has a very desirable class of men with few rejections.

DEATH OF A. C. RONEY

Gang Foreman of the Northern Pacific Machine Shop Died Suddenly of Heart Disease

Alonzo C. Roney, age 59, of 396 North Ninth street, died suddenly of heart disease at 9 o'clock on Monday evening in a local hospital. He was widely known, having been a gang foreman of the Northern Pacific machine shops.

He leaves a wife, Mrs. Mary Lella Roney of this city and three sons, J. J. Roney, Carl E. Roney and Walter Stanley Roney of Brainerd, one brother E. E. Roney of Richmond, Ind.

He was a member of the Knights of Pythias of Richmond, Ind., of the local machinists association and carried insurance in the New York Life Insurance Co. He had lived in Brainerd ten years. For the last two years he had been failing in health.

The date of the funeral cannot be announced until all relatives are communicated with. It will be held from the residence either Thursday or Friday, and will be under Knights of Pythias auspices. The sympathy of the community is extended the family in its bereavement.

FITZHARRIS CASE

Charged With Obstructing Window of His Soft Drinks Place, Heard by Judge Wieland

W. E. Fitzharris, charged with obstructing the windows of his soft drinks place on Laurel street, and thus breaking a city ordinance, was in municipal court Monday afternoon to answer the complaint made by the Chief of Police, John D. Gile.

The evidence tended to show that some soldiers had placed the American flag in his window and the flag extended down about five feet and shut off a clear view of the interior. One could see in by stooping low and looking under the flag or by looking on either side.

Fitzharris was found guilty of obstructing the view of the interior of the place and was given the mini-

IF BACKACHE OR KIDNEYS BOTHER

Eat less meat and take a glass of Salts to flush out Kidneys—Drink plenty water.

Uric acid in meat excites the kidneys, they become overworked; get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush out the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad. Eat less meat, drink lots of water; also get from any pharmacist four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

Old Looks?

(BY DR. V. M. PIERCE)

Persons suffering from too much uric acid in the system frequently look older than they should. They age faster and the appearance of gray hair or baldhead in early years is, indeed, often a sign of uric acid. The face appears lean and haggard, lines and wrinkles appearing in young men or women.

The best way to combat this premature age and the obstruction to the arteries and faulty circulation is of the simplest: Drink copiously of pure water between meals. This will not make you fat, as it is only the water taken with the meals that fattens. Obtain at any drug store a small package of Anuric, which is to be taken before meals, in order to expel the uric acid from the system. The painful effects of backache, numbness, rheumatism, gout, due to uric acid in the blood should quickly disappear after treatment with Anuric.

SUFFERING UNBEARABLE.

WOMEN EVERYWHERE

Brainerd, Minn.—“For a number of years I suffered with woman's weakness. At times my suffering was most unbearable. I had backaches which would run down through my sides. I could not seem to find any medicine that would give me the least relief until I began taking Dr. Pierce's Favorite Prescription, and one bottle completely cured me of my ailment. I have since become the mother of a fine baby boy and he, as well as myself, is in the best of health. This medicine did wonders for me and I am only too glad to recommend it to weak and ailing women.”—Mrs. E. D. Wadsworth.

PLAN TO CREATE WORLD TRIBUNAL

Many Noted Men Attend Important Conference.

TAKES EFFECT AFTER WAR

America's Leading Educators, Lawyers, Editors, Financiers, Writers, Historians, Government Officials and Foreign Diplomats Take Part in Framing Scheme to Maintain Peace.

Long Beach, N. Y., May 29.—A campaign to create in America a sentiment for an international court of justice after the war was launched here at the opening of the National Conference of the Foreign Relations of the United States.

Nicholas Murray Butler, president of Columbia university, called this task development of the “international mind.”

“The international mind,” he said, “requires that a nation and its government shall freely and gladly grant to every other nation and to every other government the rights and privileges which it claims for itself.”

Charles Evans Hughes, Republican candidate for president last fall, seconded this view.

Law Must Be Supreme.

“If the world is to be made safe for democracy,” he declared, “it must be a world in which the nations recognize and maintain the supremacy of law.”

“International sentiment must be developed to support the international court that interprets the law,” he said.

The conference is under the auspices of the Academy of Political Science, the American Bar association and the United States Chamber of Commerce. It is the largest gathering of its kind ever undertaken here.

America's leading educators, lawyers, editors, financiers, writers, historians and numerous government officials, foreign diplomats and heads of American and foreign news press associations are taking part in the five-day conference.

ITALIANS KEEP UP OFFENSIVE

Austrians Unable to Check Advance on Triest.

SEVERELY PUNISH TEUTONS

General Cadorna's Men Repulse Violent Counter Attacks and Approach Nearer Seaport on the Adriatic. Aerial and Artillery Activity Indicates Another Battle Developing in France.

London, May 26.—From Plava, on the Isonzo, to the Adriatic sea the Italians and Austrians are fighting bitterly and the troops of General Cadorna are making steady progress, especially on the southern end of the twenty-one-mile front.

North and south of Jaimano the Italians have driven the Austrians back and taken additional important positions. The gains here are a direct menace to the defenses of Triest. The fighting is made harder because of the barren, hilly country.

Notwithstanding the difficulties of terrain and the stubbornness of the enemy resistance, however, Cadorna's men have reached the outskirts of Versio.

Austrians Severely Punished.

The Austrians have attempted to check the Italian advance on the southern Carso by violent counter attacks south and east of Gorizia and along the Vodice sector. At all points of attack the Austrians were driven back with heavy losses and east of hill 652, on the Vodice, the Italians captured the position from which the Austrians emerged to the attack.

The prisoners taken by General Cadorna's command since Wednesday morning has increased to 10,245, including more than 300 officers.

Local infantry attacks by the British and the Germans and intensive artillery and aerial activity on the Arras front may indicate a renewal shortly of intensive fighting there.

Around Loos and near Bullecourt, the northern and southern ends of the Drocourt-Queant switch line, both armies have made attacks, but with no great success yet reported.

BECOME DRY BY DEGREES

War Will Bring Prohibition in the United States.

Washington, May 26.—Recent conferences of officials with the foreign war missions, it was learned, have included full discussions of the question of wartime prohibition, which it has been concluded will become a necessity both in the United States and England.

It is probable prohibition in the United States will come in easy stages, with the elimination of distilled spirits first and a later ban on beer, should the grain situation demand drastic steps.

In England, it is stated, plans have been formulated for absolute prohibition about Nov. 1, when the available supply of malt in storage will be exhausted. This step will be reached, it is said, by gradual stages, for the British government is not blind to the extreme difficulty of enforcing prohibition on the English laboring man.

GENERAL PERSHING TALKS

Says America's Entrance Into War Is Deciding Factor.

Washington, May 26.—With a soldier's blunt directness Major General Pershing, who will lead the first American troops to the French trenches, told America she must awaken quickly to realization of what the war means to the country.

“Upon America,” General Pershing told a Red Cross meeting, “is to rest the brunt of the terrible burdens to come.”

“France is under a terrific drain,” he said. “The United States must meet the deficiencies caused by this drain. It is the United States that must rehabilitate France. We must help her orphans, her widows.”

“Yet, I am sad to say, the feeling among our people is lax. They don't realize the depth, the horrors of this war.”

“America's entrance into the war is the deciding factor.”

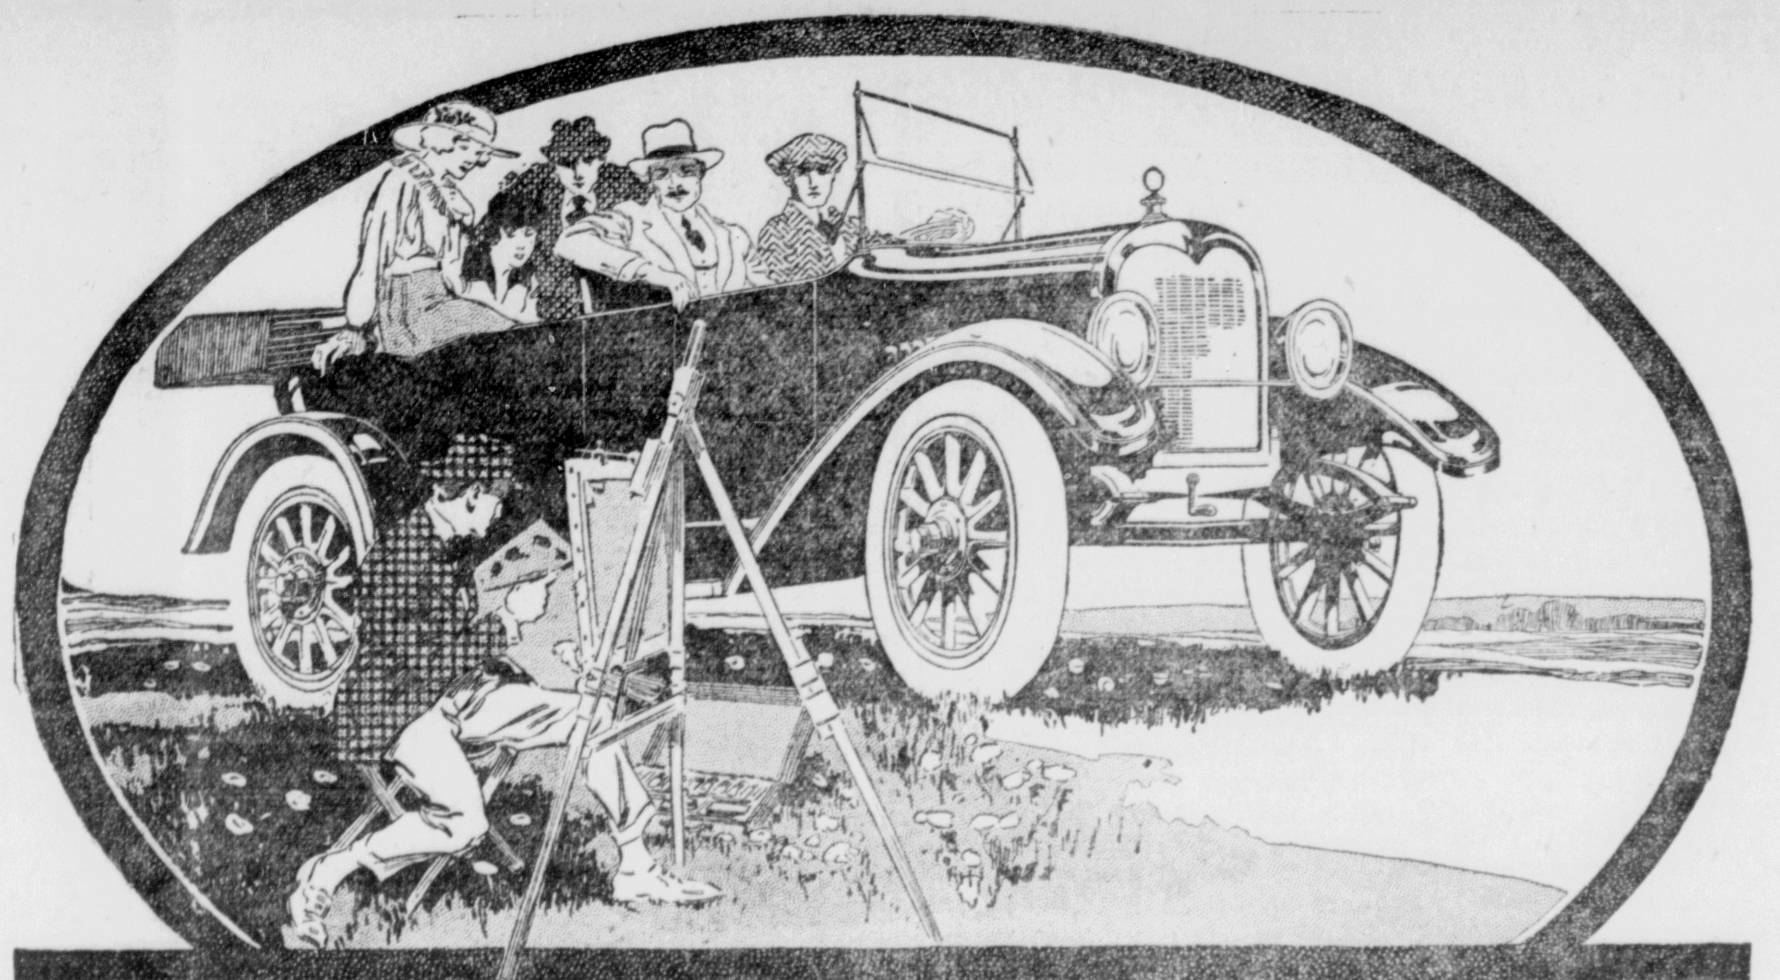

AMERICAN WARSHIPS SAFE

Secretary Daniels Says Rumors of Losses Are False.

Washington, May 26.—A categorical denial that any American naval vessels have been sunk in the war was issued by Secretary Daniels to counteract a “campaign of vicious rumors that is being carried on so industriously by persons unknown.”

It was the first official notice to be taken of a flood of reports of naval disasters that started almost as soon as it was known that American destroyers were in the war zone.

“It is with deep regret,” the secretary said in a formal statement, “that I note the daily stream of false reports with regard to the sinking of American ships.”

The Maxwell Is Mechanically Right We Waited Four Years To Say That

The makers of the Maxwell spent four years in developing the car. Patient, persistent, scientific refinement of one model—that was the method. An automobile that beats the world for endurance, efficiency, economy—that's the result.

You know the old story about the race between the hare and the tortoise:

—how the hare skipped about the fields—nibbled clover tops—cut all kinds of capers, trying to “show off.”

—how the tortoise stuck to his job—stayed in the middle of the road—kept on going—and won the race:

—you know that story and its moral.

No Experiment in Maxwell Mechanism

Some automobile makers have run around after novelties—like the hare, trying to add untried “improvements” which operate better in advertising than on the car.

But the Maxwell makers held fast to one model, —and when some one made a big how-de-do about his latest novelty, the Maxwell makers strengthened a pin, —or simplified or improved a part of the Maxwell mechanism, —or in other big and little ways developed, refined, perfected the one Maxwell model.

So that, in the end, the Maxwell won by the tortoise method.

The Maxwell World Endurance Champion

A Maxwell stock car—a duplicate in every detail of your Maxwell—without stopping the motor, traveled 22,022 miles in 44 days and nights.

—and at a rate of 25 miles an hour and 22 miles per gallon of gasoline.

No other vehicle built by human beings ever did anything to compare with that feat.

The Economy Champion Too

P. D. Armour used to say that his packing houses “utilized all the hog but the squeal.”

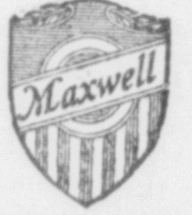

That's the kind of economy you get in a Maxwell.

DUNN AND MOORE PLEAD NOT GUILTY

St. Paul, May 29.—Michael Moore, bartender, played the role of an insane man in Ramsey county district court when he and Frank J. Dunn, teaming contractor, pleaded not guilty to an indictment charging them with the murder of Mrs. Alice McQuillan Dunn.

Moore renounced his attorney, Thomas J. Newman, protested against the reading of the indictment, declared he was Jesse James and defied the state to prove he received any “blood money.”

His loud and violent outcries interrupted the procedure, but Judge Hugo O. Hanft quietly ordered Clerk Ted Gronewold to continue and the plea finally was entered properly despite the alleged “go between's” protests.

Dunn, who was arraigned first, pleaded “not guilty” in a firm, clear voice and evidenced no emotion or nervousness. Moore's case was set for trial June 6 and Dunn's for the same day to follow in order.

A large crowd, most of them men, watched the trip of the prisoners from the jail to the courthouse and thronged the corridors and criminal court room, but there was no demonstration. Chief J. J. O'Connor and Sheriff John Wagner took special precautions to prevent trouble, a detail of plain clothes men and deputy sheriffs being deployed along the route and through the building.

The normal temperature of horses, men and tigers is about the same. That of chickens is 111 degrees F. and that of glowworms only 74.

IS FACING ECONOMIC RUIN

Industrial Crisis in Russia Becoming Acute.

Petrograd, May 29.—The industrial crisis in Russia is so acute that, according to a recent utterance of M. Shingaroff, minister of finance, only a miracle can save the country from economic ruin. The demands of the workmen are so enormous, he declares, it seems impossible to keep the industrial wheels going for any great length of time.

The Socialist ministers at a recent council said the only possibility of settling the difficulties is to bring the war to a close.

Neither the coalition cabinet nor the newly appointed commission to regulate the difficulties between capital and labor has yet found a way to settle the crisis.

ANOTHER WARNING ISSUED

Prosecution Will Follow Interference With Registration.

Washington, May 29.—Attorney General Gregory issued another warning that the department of justice will deal relentlessly with persons who attempt to interfere with the execution of the draft law.

“There are indications,” said Mr. Gregory, “that attempts will be made in one or two of the Central Western cities to make registration ineffective.”

“The department is prepared to care for such emergency. Its agents will be instructed to see that registration officers are not interfered with in the performance of their duties.”

THE SENATOR TELLS THE GOOD JUDGE ABOUT IT.

HELLO JUDGE! YOU OUGHT TO KNOW A LOT ABOUT GOOD TOBACCO, BUT YOU NEVER TASTED ANY AS GOOD AS THIS W-B CUT—TRY IT?

BEEN CHEWING NO OTHER FOR THREE YEARS

WAKE UP, SENATOR! THE JUDGE PUT ME NEXT TO THAT THREE YEARS AGO

IT'S worth your while to get what good tobacco judges say about W-B CUT, and to notice the way men are changing over to it. Talk it over with some one who chews W-B CUT—there's something sound and fundamental about the tobacco. It's not gummy with syrup; just tobacco through and through —and mighty rich, sappy leaf at that—shredded and lightly salted to bring out the good tobacco taste.

“You need a little more iron in your blood,” said the physician.

“Gee, doc, is there iron in the blood?” asked the patient.

“Yes, to be sure. There is iron in everybody's blood.”

Worms Handicap Your Child

Worms drain the strength and vitality of children, making them dull and listless. Their power to resist more serious diseases is reduced and energy and interest in play is lacking. Kickapoo Worm Killer is a mildly laxative remedy in candy tablet form that children like to take. It kills and removes the worms and lets your child grow strong and healthy like other children. Don't let your child be dragged down by worms. Full directions on the box. At all druggists, 25c.—Adv. ttw
